WHAT TO EXPECT

A guided tour through the expanse of Alaska's wilderness – from a bird's eye view. The Veilbreaker Skybridges experience will take you on an exhilarating journey with tram rides to alpine mountain zones, and powerful vistas seen from harrowing heights & perspectives.

The experience begins with a tram ride to the Mighty Mite trail where Alyeska's Mountain Guides will take you on a 20-30 minute hike to the Veilbreaker Skybridges from the Mountain Concierge. If you'd rather not hike, you can enjoy a ride on our ATV that can fit up to 4 guests. Following safety training, you'll be geared up with a harness and helmet to begin your journey across two bridges connecting three mountain peaks. Explorers of any skill level can experience the Veilbreaker Skybridges and the intentionally small Explorer group of up to 10 people per guide allow you to set your own pace.

After crossing the second bridge, explorers are returned to the beginning of the Veilbreaker Skybridges. Next, they will return to the top of the Tram. Explorers are welcome to enjoy the upper terminal amenities & aren't required to immediately take the tram down. Once finished, they will depart on the tram, taking them back to the valley floor.

The experience will change your connection to adventure forever.

Please arrive 1 hour before the scheduled tour start time to meet your guide & check-in. Once you finish the tram ride, your guide will go over the safety briefing and instructions at the upper tram terminal.

Gratuities for guides not included, but greatly appreciated.

Each Tour Provider has their own cancellation policy. Please check with the concierge for details. If you tour gets cancelled by the vendor due to weather or any other reason, you will be issued a full refund.

Alaska is world-famous as a fishing destination and for many their Alaska vacation would not be complete without trying their hand at "landing the big one". Fish runs are dependent on a number of variables outside your guides' control, including weather, river levels, spawning seasons and commercial fishing pressure. In order to conserve the supply of fish for future generations, state regulations require you to stop fishing once you have reached the limit allowed by law, or may impose "catch & release" mandates at any time. Please remember you are booking a *chance* to catch fish, not a guarantee. Your guides will make every effort to give you a positive experience. Alaska fishing licenses can be purchased in advance online at www.adfg.state.ak.us
